References—APA Style

Available at the Reference Desk, REF BF 76.7 .P83 2010 http://www.apastyle.org/

*The 6th ed. of the APA Manual utilizes Digital Object Identifiers (DOI) for electronic entries, when they are available. A DOI is a “unique alphanumeric string assigned by a registration agency (the International DOI Foundation) to identify content and provide a persistent link to its location on the Internet.” It appears at the end of an entry as doi:xxxx/xxxxxxxxxx

**Please note: the reference list is to be double-spaced and entries use a hanging indent. The following examples are not double-spaced to conserve space on this handout.
